MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with Dr. Brzezinski
8 August 1978

1. I told Brzezinski I was determined to do everything possible to develop legislation to deal with the Agee problem, and would appreciate his support. He said he agreed with us fully and would work with us, although the White House itself might have some problems. He wondered about the possibility of stripping Agee of his citizenship. I would appreciate the views of the OGC on this.

2. He touched on political analysis from the DDO. As we are aware, he would like to upgrade our political analysis. He would also like to have us think on a more long-range basis about developing [redacted] assets. I told him I thought this was a good idea. On political reporting, however, we had a problem with the State Department which he had created. He agreed to help resolve it. I told him it would be very useful if the President could emphasize the value he places on HUMINT during his visit to CIA. He and the President could become involved with the DDO in a dialogue on this subject. He made a note to prepare the President along these lines.
